Personalised Enamel Badges in NZ

We make enamel badges in New Zealand according to the design you provide. Your badge can include a name, logo, symbol, text, or a simple picture. We work with different badge shapes, sizes, enamel colours, and metal finishes to match your design. You can send us your design or idea, and we will help convert it into a high-quality badge. Our personalised enamel badges are made for clubs, teams, groups, events, uniforms, and personal use. We work with people across New Zealand and keep the design and ordering process simple and easy to understand.
